Education

Dr. Babasaheb Ambedkar Technological University, BTech in Computer Engineering Nov 2022 – June 2026

- **CGPA:** 7.02/10.00
- **Relevant Coursework:** Data Structures & Algorithms, DBMS, OOPS, Operating Systems, Computer Networks, Machine Learning, Compiler Design

Experience

Software Developer Intern, SiliconMount Tech Services Dec 2025 – Present

- Working as a Backend Developer on MyBOQ Community Project using Spring Boot, building 10+ RESTful APIs
- Used layered architecture and DTO mapping, reducing boilerplate by 40% and improving security
- Leveraged Spring Data JPA, Git/GitHub, and Swagger UI, boosting development efficiency by 30%

NSS Coordinator, Dr. Babasaheb Ambedkar Technological University Nov 2022 – July 2023

- Coordinated 100+ students for community service activities including blood donation camps and awareness programs
- Improved event participation by 30% through enhanced volunteer allocation and strategic planning

Projects

VeriCode | MongoDB, Express.js, React, Node.js, Python, AI GitHub

- Developed an AI-powered code quality analyzer to detect bugs, code smells, and inefficiencies
- Integrated AI-based refactoring suggestions for improving code quality and maintainability
- Built a full-stack MERN application with secure authentication and interactive chat-based interface

Placement Predictor Platform | Python, Flask, React, Machine Learning Live Demo

- Built an ML-based placement prediction platform using Logistic Regression, Random Forest, and other ML models
- Developed Flask REST APIs and optimized React frontend performance
- Implemented data preprocessing pipeline with feature scaling and encoding

Real-Time Collaborative Code Editor | React, Node.js, WebSockets, Docker, AWS ECS Live Demo

- Built a real-time collaborative code editor using WebSockets and Yjs
- Enabled live code editing with Monaco Editor and real-time sync
- Deployed using Docker on AWS ECS for scalable architecture

Quiz-and-Question-Microservices-App | Spring Cloud Config, Microservices GitHub

- Designed microservices architecture with centralized configuration using Spring Cloud Config Server
- Externalized configuration for database, Eureka Server, and API Gateway routing
- Enabled dynamic configuration updates without redeploying microservices

Technical Skills

Languages: Java, JavaScript, Python, SQL, PHP, C

Frameworks & Libraries: Spring Boot, React.js, Node.js, Express.js, REST APIs, Microservices, Machine Learning, Scikit-learn, TensorFlow

Databases: MySQL, MongoDB, PostgreSQL

Tools & Technologies: Git, GitHub, Maven, VS Code, IntelliJ IDEA, Jupyter Notebook, Swagger UI, Postman

Data Analysis: EDA, Data Cleaning, Feature Engineering, Data Visualization (Matplotlib, Seaborn, Plotly)

Certifications & Achievements

- Career Essentials in Generative AI (Microsoft & LinkedIn) | Introduction to AI (LinkedIn) | Cybersecurity Job Simulation (Forage)
- Spring Academy - Building a REST API with Spring Boot
- Solved 50+ DSA problems on CodeChef & LeetCode | CodeChef Highest Rating: 1079
